# REVEALED

Michael St.Clair

One cannot have superior science and inferior morals. The combination is unstable and self-destroying.

- Arthur C Clarke

# Closer to The Stars

- via Noesis -

## **Someone asked me simply**

"St.Clair. How do you know things?" Question is HOW!

Instinctual knowing and logical linear thought and analysis combined, or where thought is being used appropriately. Usually humans use the instrument called "thought" to turn in circles in their heads.

You use a pen to sign your name. You use a computer to type. THOUGHT is an instrument. Most people need to learn what it is best useful for.

My line of work is in the realm of Noesis. This is originally a Greek word referring to "perception of the mind", or what the mind does and perceives, and everything around this activity. Noetic is then an adjective flowing from the noun. Greek: "Nous".

NOETiC approach of seeing situations, events, data etc., leads me to see things differently than most do.. Or, imagine you have genetics combined of similar types like Mr. Spock and Capt. Kirk. Not either, or only -- but a bit of both. Or, think of me as a half human and half from the cat people / cats need no words to understand your intention. Cats cooperate with something akin to telepathy. Few humans can catch it.

Noetic is for instance a small part of REAL astrology when intelligently superimposed on situations etc. Often I see NOESiS in observing TIME space situations. Or what happens in a place at a certain time, and everything similar around same time. Noetic, poetic, prophetic, etc. It becomes then a bit of everything.

"Nous (British: /'naʊs/;[1] US: /'nuːs/), sometimes equated to intellect or intelligence, is a philosophical term for the faculty of the human mind which is described in classical philosophy as necessary for understanding what is true or real.

In short, I don't really see the problem.

I see the solution. We are the solution.

Many thanks for your time, please now it is your turn.

### Your thoughts???
